- **Ultra-Low Overnight rates**
- **Tiered rates**

Time-of-Use (TOU) rates

The following table and chart track Time-of-Use electricity rates since 2006. Under Time-of-Use rates, the amount you pay depends on when you use electricity. These rates currently apply to residential consumers, small businesses and farms.

January 18, 2022 - Fixed Electricity Price
The Ontario government has announced that electricity prices are to be set at the off-Peak price of 8.2 cents per kilowatt-hour, 24 hours per day for 21 days starting January 18, 2022, until the end of day February 7, 2022, for all Regulated Price Plan customers. Read the **government's news release** and our **FAQs**.

January 1, 2021 - Fixed Electricity Price
To support Ontarians staying home during the rapidly evolving COVID-19 situation, the Government of Ontario has taken steps to hold the price of electricity at 8.5 ¢/kWh for electricity used from January 1, 2021 until the end of the day on February 22, 2021. Read the **government's news release** and our **FAQs**.

June 1, 2020 - Fixed Electricity Price
The Government of Ontario introduced a fixed electricity price of 12.8 ¢/kWh for consumers paying time-of-use prices to support them while Ontario plans the safe and gradual re-opening of the province. Read the **government's news release** and our **FAQs**

March 24, 2020 - Temporary Electricity Rate Relief
To support Ontarians during the COVID-19 emergency, the Government of Ontario provided temporary electricity rate relief for consumers paying time-of-use prices, in the form of a fixed electricity price of 10.1 ¢/kWh. Read the **government's news release** .

November 1, 2019 - Ontario Electricity Rebate
The Government of Ontario introduced the Ontario Electricity Rebate, a 31.8% reduction applied to the pre-HST amount of eligible consumer's bills. (Lower rebates applied from January 1, 2017 to October 31, 2019 (8%) and from 2011 through 2015 (10%)). The expanded rebate largely offset the price changes on the Electricity line when pricing under the *Ontario Fair Hydro Plan Act, 2017*, ended on October 31, 2019. Visit the **government's website** .

July 1, 2017 - Fair Hydro Plan Pricing
Under the *Ontario Fair Hydro Plan Act, 2017*, electricity prices were lowered for consumers effective July 1, 2017, and were then increased at the rate of inflation on May 1, 2018 and May 1, 2019. A portion of the forecast Fair Hydro Plan price reduction was also reflected in the electricity prices set for May 1, 2017. Read our **archived news feature** for more information.
